

Design-A-Door™

THE GARAGE DOOR YOU DESIGN

The perfect way to accessorise your home...

It is now possible to ensure that your home reflects the latest in design trends with the B&D Design-A-Door™. The Design-A-Door is an innovative, sectional overhead garage door whose moods can change with the seasons.

The lightweight aluminium frame of the Design-A-Door holds different styles of interchangeable panel inserts from a range of stylish materials including acrylic, timber, steel, fibreglass and aluminium. These inserts can be easily changed, to create a dramatic new look with a minimum of fuss. The frame itself can be installed with an aluminium finish or in a choice of over 100 powder coat finishes – enough to complement any home.

Visit www.bnd.com.au for more information.

Home by WA Country Builders

AESTHETICS

Time and care are put into the design and assembly of every Design-A-Door, to ensure the perfect finish. To enhance the look, your door includes:

- Frame manufactured from industrial strength aluminium and available in an extensive powder coating colour selection, to complement your home's colour scheme.
- A range of insert options allowing you to design the door that suits the look you're after.
- Custom panel sizes and evenly spaced insert openings ensuring the door fits your home perfectly.
- A range of sizes to fit your application from height 1370mm to 3420mm, width 1800mm to 6600mm.

EASE OF OPERATION

Being simple to operate is important with a garage door, as all family members will be using the door. To ensure easy operation, Design-A-Door includes:

- Frame manufactured from industrial strength aluminium ensuring it is lightweight and remains corrosion resistant.
- Inserts fitted using snap-on extrusions and glazing seals.

Automate your Design-A-Door with one of the B&D Controll-A-Door® range of openers, for added operational convenience.

WEATHER PROTECTION

Today's garage is used to store many different valuable objects, and in some cases is used as another room, so weather protection is crucial. The Design-A-Door features:

- Soft, pliable bottom weatherseal to help stop leaves and rain coming in under the door.
- Galvanised hinges and hangers providing resistance to corrosion and long lasting durability in the toughest of weather conditions.

SMOOTH QUIET OPERATION

Your home should be your refuge from the busy world, and you don't want a noisy garage door disturbing you. The Design-A-Door has been designed to ensure it operates quietly, with features such as:

- Nylon wheels with ball bearings ensuring operational noise is kept to a minimum.

STRENGTH AND DURABILITY

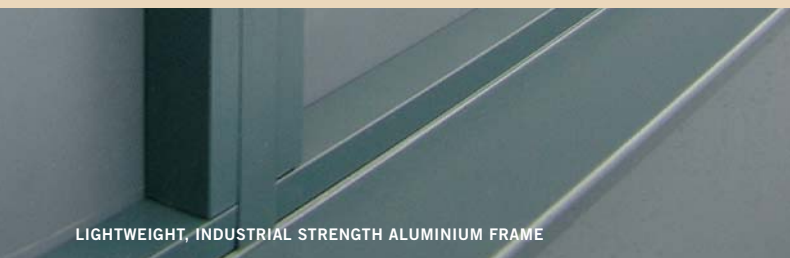

Having a unique garage door shouldn't be a chore. Your Design-A-Door requires minimal maintenance*, thanks to features such as:

- Springs designed to exceed the Australian Standard for garage doors – 20,000 cycles, giving your door greater durability and a longer life.
- Specially designed, reinforced extrusions for wide doors – all panels reinforced for door widths of 3800mm and over.

*As with all types of garage doors, for optimal trouble free performance and safety, we recommend you have your door serviced annually.

WARRANTY

12 month warranty for complete door and parts in domestic and industrial / commercial applications, surface (excludes salt corrosion).²

Notes / Information

- ¹ Because Western Red Cedar inserts are manufactured from real timber, colour variations will occur across the insert. Every effort will be made to match colour as closely as possible, but some variation may still occur.
- ² All inserts must be changed or installed by an approved B&D door installer or warranty will be voided.
- a) Design-A-Door doors, in domestic and industrial/commercial applications, are covered by a 12 month warranty, conditional on proper care, as recommended in the door's handbook. Full details of the warranty are available from www.bnd.com.au. 12 month warranty only applies to doors purchased and installed in Australia or New Zealand. Warranty only valid if warranty conditions are met.
- b) For areas within one kilometre of a corrosive environment eg. salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult B&D or your B&D Accredited Dealer for advice.
- c) The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered. Specifications subject to change without notice.
- d) Prefixed Trademarks are trademarks of B&D Australia Pty Ltd.
- e) B&D products have many patents and registered designs applicable.
- f) Details correct at date of publication.
